

CLAIRPOINTE RESILIENCE

CLAIRPOINTE FAMILY CHIROPRACTIC

WE'RE BACK!

The last several weeks have been challenging dealing with a building fire that started on Sunday, April 30th. But with some fast thinking and help from a few friends, we were able to find a temporary solution to continue adjusting our patients.

The staff, Dr. Nathan, my family, and I were able to move the office and start adjusting within a few days to continue caring for our patients. We made the best of that temporary situation and created a home for seven weeks.

While waiting to return to our Kerby home, we decided to do a little upgrading in our office. We painted the walls, installed new flooring and carpeting, bought new chairs, changed the wall decor, and more. We are so happy with the renovation and hope you enjoy it too.

No matter the challenges Clairpointe may face, we are resilient and will continue to care for our patients no matter the circumstances. We thank you all for your continued trust and support and look forward to being back in our Kerby home.

REDUCE YOUR STRESS!

Stress can be very harmful to your body, and even with proper diet, exercise, chiropractic care, and mental health exercises, sometimes we may need a little extra help. Ortho Molecular makes a series of supplements that can help you manage your stress, anxiety, and or depression. Ask the doctors at Clairpointe Family Chiropractic which supplements are best to help you live a more balanced lifestyle.
